PROFILE

24HRC has been among the top service providers in commercial occupied buildings reconstruction segment within California. We specialize in General Contracting and self-performing trades on minor and major projects that are urgent and critical in nature with strict deadlines. We also self perform 3D scanning of interiors, facilities and existing buildings.

We have grown by word of mouth from our initial client's faith and trust in the execution of our great work. 24HRC has current and past experience on client projects and task/work orders ranging in size from \$5,000 - \$4,500,000+ over the past 15 years.

Widely acknowledged for our integrity, ability and safety to complete complex difficult projects with urgency and discretion.

Our staff has in excess of 100+ years of construction industry expertise. Combined, our professionals speak four different languages, have multiple contractors licenses, and have EM-385, OSHA-30, IICRC, HAZWOPER, and various specialized certifications.

We are proud to have completed the Clark Construction SPP, Goldman Sachs 10,000 Small Businesses and Babson's Surge & Grow programs.
